Inspirational week

Shaikha Noor Al-Khalifa & Shaikha Haya Al-Khalifa

Cousins and best friends since childhood, Shaikha Noor bint Rashid Al-Khalifa and Shaikha Haya bint Mohamed Al-Khalifa shared a common vision and big ambitions, which included putting their names and the Kingdom's name among the world's most prestigious fashion pioneers. They turned that vision into a reality by establishing Noon by Noor in 2008, after completing their fashion design studies in USA in 2008.

A launch event for the brand was held in 2011 in Los Angeles, USA, and it was not long before the pair made their first presence in New York fashion week to present their 2012 Fall Collection in front of key editors, journalists and celebrity guests, which made it the very first GCC brand to be invited to the event by IMG.

Fozeia Zainal

An active member of the community in the political, media and academic fields, in addition to becoming a avid adherent of women-related matters in the Kingdom, Fouzia bint Abdullah Zainab was awarded with the Best Political Achievement for Arab Woman in 2018 after being elected as Council of Representatives Speaker, becoming the first woman in this role in the Kingdom's history.

Hala Obeid

"Chef Hala Obeid took her passion and ambition to the next level by entering an ever-changing and competitive market, by opening Hala Café in Amwaj Islands in 2013, which soon became a huge success through her uniquely prepared traditional Bahraini dishes, which holds a very dear place in the hearts of Bahraini and tourists alike. And in 2018, chef Hala expanded her business further by opening her 2nd branch in Seef mall which did not take long before it turned into a popular destination for many food lovers.

It is worth nothing that chef Hala Obeid has written 14 culinary books since 1985."
